Dr Ian Jones is a Reader in Perinatal Psychiatry and Honorary Consultant Psychiatrist in the MRC Centre in Neuropsychiatric Genetics and Genomics, Cardiff University. Graduating from St Georges Hospital Medical School, London, he trained in general medicine and psychiatry in South Wales and on obtaining membership of the Royal College of Psychiatrists began research training in the Neuropsychiatric Genetics Group at the University Hospital of Wales, Cardiff. He was awarded a Wellcome Trust Training Fellowship to study the genetics of Puerperal Psychosis in Birmingham and spent a year as a visiting research fellow at the Medical College of Virginia, USA. Prior to his appointment in Cardiff he was Senior Lecturer at the University of Birmingham. His main research interest is molecular genetic approaches to the study of affective disorders in general and puerperal psychosis in particular. He has authored or co-authored over 160 publications and book chapters in the fields of mood disorder genetics and perinatal psychiatry. His main clinical interest is developing services to identify women at risk of severe postpartum episodes and in the development and delivery of psychoeducation approaches for bipolar disorder. In 2010 was awarded the Marcé Medal for his research on postpartum psychosis.
